

K-LOVE is the only commercial free music station in our area. Many of my friends and relatives also listen to K-LOVE to get encouragement and to hear the best Christian music throughout the day. We also expect to hear the latest news without bias and "political correctness" or in other words we can always expect to hear the whole Truth and nothing but the Truth.

If K-LOVE were not on the air we would seldom be listening to the radio. There is a monumental need for Christian commercial free radio and there will be more need for it in the future. As more people in our country desire to know the truth, they will turn to radio to hear the truth presented from a biblical perspective and that is precisely what K-LOVE is doing.

Please keep K-LOVE on the air. Do not replace it with an LPFM broadcaster.
Thank You.
